Transforming our community - one neighborhood at a time.

We're a non-profit, 100% volunteer-based organization striving to connect and bring people of all backgrounds together over something that affects us all. We are stronger together, and once we start to pick up litter and become leaders in our community, others will follow suit!

It starts with a piece of litter and then blossoms into a beautiful community that you and I are proud of.

- * Buckets, bags and gloves provided free of charge.
- * Chance to win a gift card at every clean up!

Download our App using the QR Code

The purpose of the app is for volunteers to track their route as they pick up litter. Allowing the staff at Walking for Rochester know which areas are clean.
